TVET. Education that Empowers.

Skills for Equality

Technical and Vocational Education and Training (TVET) is opening doors for women across Pakistan. By providing practical, job-ready skills, TVET supports women to access decent work, start businesses, and participate actively in growing sectors of the economy.

From digital technologies and renewable energy to agribusiness and technical trades, women are building careers that were once considered out of reach. Skills training linked to real employment opportunities strengthens confidence, independence, and economic resilience.

Women in Skills. Women in Work.

TVET promotes equal access to training and creates inclusive learning environments where women can thrive. Dedicated career guidance, industry partnerships, and internationally recognised qualifications help ensure that women's skills lead to real employment opportunities.

Special focus is placed on digital and high-tech training, preparing women for the jobs of the future. Safe training spaces, gender-responsive teaching approaches, and strong employer engagement support women in entering and succeeding in both traditional and non-traditional professions.

TVET helps women turn learning into earning — and ambition into achievement.

TVET helps young people turn learning into earning. By linking skills training with real job opportunities, career guidance, and strong industry partnerships, TVET opens doors to decent work. It is a practical route to employment, confidence, and a sustainable future.

TVET FOR
WOMEN 

Inclusion and Opportunity

TVET supports women from diverse backgrounds — including returnees, prospective migrants, and women with disabilities — ensuring that no one is left behind in Pakistan’s skills development journey.

By strengthening women’s participation in green, digital, and high-growth sectors, TVET contributes to a more inclusive and prosperous future.

Key Impact Expected Until 2028

- **2,000 women** trained in digital and high-tech skills
- **2 Women’s Centres of Excellence** established and accredited
- **4,200 women** benefited from tailored career guidance services
- **70% female** participation in apprenticeships

Call to Action

On this International Women’s Day:

- **Women:** Explore skills that open new career paths
- **Families:** Support women in pursuing technical education
- **Employers:** Invest in skilled women for a stronger workforce

Disclaimer: The TVET Sector Support Programme in Pakistan is co-funded by the European Union and the Federal Republic of Germany. The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH implements the Programme together with British Council in close cooperation with the National Vocational and Technical Training Commission and other public and private sector organizations in Balochistan, Gilgit Baltistan, Khyber Pakhtunkhwa and Punjab. The programme’s objective is to support the development of Pakistan’s TVET sector, focusing on training for men and women in professions with a high demand, especially in digital and green skills.
